Ron Starkman  
Children's Guardian Foundation  
PO Box 531298  
Henderson, NV 89053

Dear Ron,

The Torrance Police Department Traffic Division is very excited about our partnership with the Children's Guardian Foundation and the implementation of the flashing crossing guard signs for our twenty nine Crossing Guard posts. After testing the signs at the end of the last school year, we found the signs to be very beneficial in increasing Crossing Guard visibility which should have the added benefit of increasing safety at our controlled intersections, thus making it safer for our elementary school children on their way to school.

With the ever decreasing budgets in this time of fiscal concern, your company's efforts to provide these signs to municipalities, at no cost, is a true benefit. Without your company's efforts, these signs could not be implemented. The Traffic Division looks forward to continuing this partnership as we implement the use of these signs at all of the Crossing Guard controlled intersections throughout the City of Torrance.

If you need anything further from the Traffic Division, please don't hesitate to contact me directly at (310) 618-5568.

Sincerely,

Lt. Steve D'anjou  
Traffic and Special Events Division Commander
